Original stoneware
fired twice for the highest quality

Handmade
every product is unique

Exclusive raw
solid-coloured stoneware compound

Oven safe, microwave safe,
freezer safe and dishwasher safe

Follow our care guide to keep your stoneware beautiful for many years. See the guide at aidadenmark.com

RAW

CRAFTED CONCEPT

A number of mechanisms are used to create the look of the elegant RAW stoneware. The glazing of the stoneware does not consist of a uniform, solid colour, but it varies in colour and texture because of the chemical process in the oven.

The glazing develops differently from piece to piece, which is the reason the set is different in saturation, crystallization, and stratification. This technique is highly appreciated by many ceramic artists. The many variations in colour and texture makes every piece unique and gives the set its handmade look.

RAW - Crafted concept is designed in collaboration with the Danish lifestyle influencer, mom, boss and darling Christiane Schaumburg-Müller. Editor/owner/creator of the Danish lifestyle universe @chrichridk and @lillekanin_dk. 360,000 followers on Instagram.

An exclusive and raw solid-coloured stoneware compound, which is fired twice to reach the highest quality and a strong durability – RAW stoneware is manufactured for daily use in the Nordic home.

Christiane S-M

TITANIUM BLACK

// TITANIUM BLACK

Inspired by the ninth most abundant element in the earth's crust – particularly strong, powerful and lightweight. The black glazing of the stoneware does not consist of a uniform solid color, but it varies both in colour and texture - Titanium black – is the new RAW glaze. Set a sophisticated, unique, raw, deep black in black table, or mix it up.

// TITANIUM BLACK

ARCTIC WHITE

// ARCTIC WHITE

Feel the ice cold air, almost hurting in your lungs, listen to the total calmness that the heavy blanket of fresh snow creates, where the only sound is the running water in the stream, playing with the winter sun - giving you the feeling of being all alone in this arctic wonderland. A new white reflecting feel, a new stoneware collection, a new RAW experience.

MIDNIGHT BLUE

// MIDNIGHT BLUE

Inspired by the dancing northern lights, also called Aurora, in all its glory. The deep and mysterious blue is a dominating colour in the latest trends, where the Nordic dark colour palette has become popular. It is a decadent and an exclusive blue colour celebrating the Scandinavian nature.

METALLIC BROWN

// METALLIC BROWN

Turns your mind to a late summer's evening by the lake. The dragonfly's sparkling body reflecting in the water is the inspiration for Metallic Brown, where the deep and raw brown colour plays freely with the sparkling and reactive gold glazing. Set a sparkling RAW table with Metallic Brown or play with the colours from Northern Green and Midnight Blue, which brings the senses into play.

NORTHERN GREEN

// NORTHERN GREEN

The stoneware has a deep green pine colour with small grey, almost sparkling speckles. This creates a beautiful contrast but is still subtle and suits most Scandinavian table settings. An exclusive and raw solid-coloured stoneware compound, which is fired twice to reach the highest quality and a strong durability.

NATURE & LINEN

// NATURE & LINEN

Our linen textiles are made of 100% linen and are therefore of very high quality. The pure linen has a natural ability to absorb moisture as well as to dry more quickly than most other textiles. In addition, linen has a desired ability to keep shape. With proper care, our linen textiles are almost impossible to wear out.

CARE GUIDE

Taking good care of your belongings makes good sense. It prolongs their lifespan, which is good for your finances as well as the planet. Follow our care guide and keep your things beautiful and usable for many years to come.

DINNERWARE - STONEWARE & PORCELAIN

Stoneware and porcelain are sturdy materials burned at high temperatures. The higher the temperatures, the sturdier it gets – and our stoneware and porcelain are burned at very high temperatures above 1200° C. As long as you take certain precautions, our stoneware and porcelain are dishwasher, oven and microwave safe and can also go in the freezer. But never put normal stoneware and porcelain into a preheated oven or directly from a warm oven onto a cool tabletop. Big temperature differences might cause it to crack and break, which is why it should always be heated up and cooled down slowly.

GLASSES – SODAGLASSES

Our ordinary glasses are made of soda glass, which is easy to care for. Just follow our care guide – and make sure not to drop them on the floor – and your glasses will stay beautiful and useable for many years. You can easily wash your soda glasses together with dishes and cutlery, as long as you choose a short cycle with temperatures below 55° C. Apart from that, we recommend that you follow our care guide for crystal glasses.

CUTLERY - STAINLESS STEEL

All our cutleries are made from stainless steel. Stainless steel is a very robust material, which is easy to care for. You should, however, always follow our care guide, since stainless steel should maybe rather be called rust-resistant steel, because all steel – also stainless steel – can rust, if it is not treated correctly. Cutlery should always be rinsed or washed immediately after use, since acid from certain foods can damage it – but never let it soak. If certain measures are taken, all our cutleries are dishwasher safe. Make sure to use dishwasher detergent and rinse aid from the same brand and to dose it correctly – it must not contain chlorine. Always place the knives in a separate dishwasher basket, since the blades are made from less rust resistant steel than the rest of the cutlery. Do not overload the dishwasher, as cutlery needs proper space in order to be thoroughly washed and rinsed. As soon as the wash is completed, you should open the dishwasher door to let the moisture out.

Rust is tiny rust particles that are being swirled around in the dishwasher during wash cycles and thereby end up on cutlery and other things made from steel.

PLACEMATS – LEATHER & SILICONE

Always remove spilled foods and fluids immediately, since they can cause stains. The place mats should always be cleaned after use, which can easily be done with a damp cloth and some mild washing-up liquid. Never put your place mats in the dishwasher and avoid contact with warm things such as pots and pans; folding as well as prolonged exposure to direct sunlight. Now and then the place mats can be rolled “the opposite” way to make sure that they keep their completely flat shape.

TEAK WOOD

Teak wood is an extremely solid material, and, if treated properly, the hard wood is almost impossible to wear out. Never put your wooden cutting board or other wood products in the dishwasher. Wash it instead by hand, dry it thoroughly with a dishtowel, and let it air dry before putting it away. To keep the wood from drying out, it should regularly be treated with a suitable and food approved oil. Unpleasant odors are easily removed with salt and lemon – just sprinkle a tablespoon of salt on your cutting board and rub it around with half a lemon.

100% LINEN

Let your new linen textiles soak for about 24 hours before the first wash. Coloured linen should be soaked in cold water, while naturally coloured linen should be soaked in warm water. Always choose a gentle cycle with a short and gentle spin, and make sure to use a washing powder or liquid without chlorine or optical brightener. Never put linen in the dryer, but smooth and stretch it after each wash and hang it to dry - avoid strong sunlight. The wrinkled look is part of the charm of linen, and it is best to avoid ironing and mangling. If you choose to iron or mangle your linen textiles anyway, make sure to do it at low temperatures before they are completely dry. Be aware that pure linen might shrink 5-7%.
