---

aida works closely with a number of recognized Danish designers.

Common for the designers associated with aida is that they all contribute to the modern Scandinavian expression that aida is known for.

**Simplification**  
**Renewal**  
**Beautification**  
**Colourful**

are some of the words that are characteristic for our design.

---

## DESIGN COLLECTIONS

For more than 70 years, aida has presented timeless porcelain of good quality at affordable prices. From the beginning, aida's philosophy has been to create beautiful and durable tableware.

A craftsmanship that lives up to both professional chefs and private food lovers' daily requirements – be it in the kitchen or at the dinner table. In 1953, Ancher Iversen set up the company Ancher Iversen A/S with the intention of setting the daily table with good design.

In 1969, the well-known company invited the hard-working colleague Finn Maae Jensen to become partner and when Ancher Iversen passed away a few years later, Finn became owner of the company.

In 1996, the Søholm stoneware factory joined the aida family. In 2002, Peter Maae Jensen became managing director and principal shareholder, thereby giving the company new life in its already great heritage of making good designs for every table and kitchen.

The company completed a rebranding process and, among other things changed its name to aida (ancher iversen danmark).

Today, aida is a Danish design company striving to give food lovers the highest possible value for money within tableware, glassware, cutlery, kitchen utensils, lifestyle and gift articles.

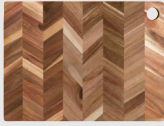

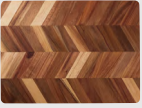

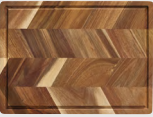

# ACACIA WOOD

// ACACIA WOOD

The aida Design Herringbone made from acacia wood have a classic and timeless feel. The collection consists of wooden boards, paper towel holder, tray, and butter boards. Use them in your kitchen or use them as beautiful and stunning serving boards for the table.

# ULTIMA

The ultimate mouthblown crystal glass for...

// ULTIMA

Ultima is a series of glass developed in collaboration with industrial designer Karim Rashid. The stylish design makes Ultima stand out with its more angular shapes, which gives them a special, exclusive expression. Ultima is glass of the highest quality, which are mouth-blown in the finest, thin, lead-free crystal glass and dishwasher safe.

Karim Rashid is one of the most unique voices in design today. More than 4000 designs in production and over 400 awards for his work attests to Karim's success. His work is featured in 20 permanent collections, and he exhibits art in galleries around the world. Karim is a frequent guest lecturer at universities and conferences, where he talks about the importance of design in everyday life.

# PASSION

// PASSION

Passion is molded in the finest bone china quality. The creamy and silky colour emphasizes the romantic undertones. Bone china gives the series an exclusive and strong quality. The refined embossed pattern makes the collection very elegant.

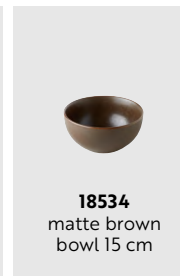

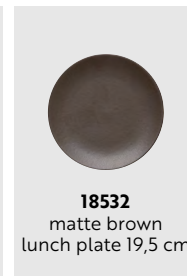

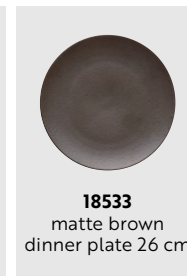

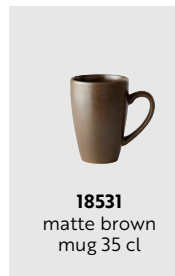

# CERAMIC WORKSHOP

// CERAMIC WORKSHOP

A high-quality stoneware series with lots of different expressions due to the beautiful, reactive glaze. The stoneware is beautiful on its own, but also mixes perfectly with the other colours. The inspiration for this stoneware series came from nature and the pieces give the feeling of being close to the warm rays of the sun, birds singing, and the beautiful dark and orange shades of autumn with leaves falling and chestnuts on the ground — all associated with good memories.

# RELIEF PORCELAIN

// RELIEF PORCELAIN

Our popular porcelain series Relief is available in beautiful pastel colours, which can be matched with Relief in white porcelain. Choose or mix between dusty green, rosa, and light blue to bring some colour to your table setting. The series is made of durable quality porcelain.

# CARE GUIDE

Taking good care of your belongings makes good sense. It prolongs their lifespan, which is good for your finances as well as the planet. Follow our care guide and keep your things beautiful and usable for many years to come.

## ACACIA

Acacia wood is an extremely durable material, and if treated properly, it is almost impossible to wear out. Never put your cutting board or other wooden products in the dishwasher. Instead, wash them by hand, dry them thoroughly with a tea towel, and let them air dry completely before storing them. To prevent the wood from drying out, it should be regularly treated with suitable and food-safe oil. Unpleasant odours can easily be removed by sprinkling a tablespoon of coarse salt over the cutting board, rubbing it with half a lemon, and then rinsing it clean.

## CRYSTAL GLASSES

Our crystal glasses are made in Germany from lead-free crystal of the highest quality. Produced in a single piece for durability, they can stay beautiful for years with proper care. Crystal glasses are dishwasher safe but avoid corrosion by adjusting your dishwasher to your water hardness and dosing detergent, salt, and rinse aid correctly. Use a short programme below 55°C and dry thoroughly with a clean tea towel after washing. Store glasses upright to allow them to breathe. Lime deposits, often mistaken for corrosion, can be removed with citric acid. Add 50 grams to the detergent compartment and run a cycle.

## PORCELAIN & STONEWARE

Porcelain and stoneware are sturdy materials burned at high temperatures. The higher the temperatures, the sturdier it gets, and our porcelain and stoneware are burned at very high temperatures above 1200° C. As long as you take certain precautions, our porcelain and stoneware are dishwasher, oven and microwave safe and can also go in the freezer. However, you should not put it into a preheated oven or directly from a warm oven onto a cool tabletop. Big temperature differences might cause it to crack and break, which is why it should always be heated up and cooled down slowly.

## RECYCLED LEATHER

Our placemats made from recycled leather consist of 95% recycled core leather, providing an attractive, stain- and water-resistant surface. However, it is still important to care for and handle the placemats correctly to prevent stains, rings, discolouration, and other permanent damage. Always remove spilled food and liquids immediately, as they can otherwise cause stains. The placemats should also be cleaned after each use, which can be done quickly and easily with a damp cloth and a little mild dish soap. Never put the placemats in the dishwasher. Avoid contact with hot items such as pots and pans, folding, and prolonged exposure to direct sunlight. Occasionally, the placemats can be rolled in the "opposite" direction to help them maintain a perfectly flat and even shape.

## SODA GLASS

Our soda glasses are easy to maintain and dishwasher safe. Wash them with dishes and cutlery at temperatures below 55°C using a short programme. To prevent corrosion (glass disease), adjust your dishwasher to your water hardness and dose detergent, salt, and rinse aid correctly. Store glasses upright to allow them to breathe. A white coating may be lime deposits, removable with citric acid. Add 50 grams to the detergent compartment and run a cycle.

## STAINLESS STEEL

Stainless steel is robust and easy to maintain. Rinse or wash it immediately after use to avoid damage from acidic foods. Avoid soaking, as all steel, including stainless steel, can rust if mistreated. Our stainless steel products are dishwasher safe, but use chlorine-free detergent and rinse aid from the same brand. Do not overload the dishwasher, and dry the items thoroughly after washing to preserve their appearance. Prevent "flash rust" by running regular dishwasher cleaning cycles and avoiding contact with rusted items. Check the plastic coating on wire racks to prevent rust transfer. Knives should be placed separately, as their blades are made from steel that is less rust-resistant.
