every product is unique

Exclusive raw
solid-coloured stoneware compound

Oven safe, microwave safe,
freezer safe, and dishwasher safe

RAW

INVITE NATURE INSIDE

A number of mechanisms are used to create the look of the elegant RAW stoneware. The glazing of the stoneware does not consist of a uniform, solid colour, but it varies in colour and texture because of the chemical process in the oven.

The glazing develops differently from piece to piece, which is the reason the set is different in saturation, crystallization, and stratification. This technique is highly appreciated by many ceramic artists. The many variations in colour and texture makes every piece unique and gives the set its handmade look.

An exclusive and raw solid-coloured stoneware compound, which is fired twice to reach the highest quality and a strong durability. RAW stoneware is manufactured for daily use in the Nordic home.

RAW - Invite nature inside is designed in collaboration with the Danish lifestyle influencer, mom, boss, and darling Christiane Schaumburg-Müller Aaxman. Editor/owner/creator of the Danish lifestyle universe @chrichridk and @lillekanin_dk. More than 370,000 followers on Instagram.

Christiane S-M

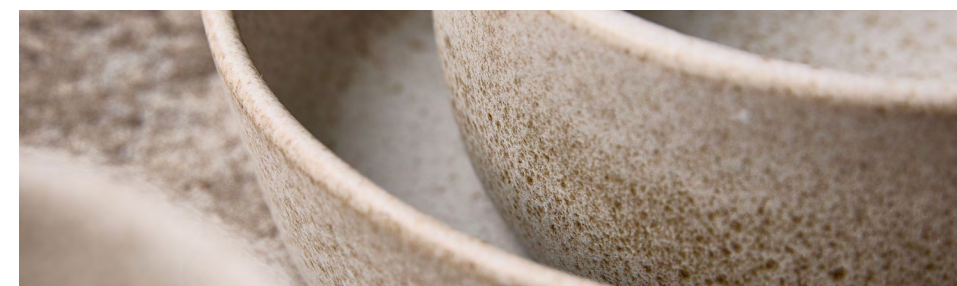

SANDY BEIGE

NEWS // SANDY BEIGE

Let us introduce you to the new RAW glaze 'Sandy Beige'. The beautiful earth colour lets the mind wander to the Nordic dunes along the coast, where you can feel the fresh air and the Nordic nature. Sandy Beige is characterised by its unique glaze with small, brown, almost sparkling speckles that varies from item to item. It is a warmer touch to the RAW universe and is perfect for the stylish, modern table setting.

TITANIUM BLACK

// TITANIUM BLACK

Inspired by the ninth most abundant element in the earth's crust – particularly strong, powerful and lightweight. The black glazing of the stoneware does not consist of a uniform solid colour, but it varies both in colour and texture. Set a sophisticated, unique, raw, deep black in black table, or mix it up.

ARCTIC WHITE

// ARCTIC WHITE

Feel the ice cold air, almost hurting in your lungs. Listen to the total calmness that the heavy blanket of fresh snow creates, where the only sound is the running water in the stream, playing with the winter sun. Arctic White gives you the feeling of being all alone in the arctic wonderland. A white reflecting feel, a RAW experience.

MIDNIGHT BLUE

// MIDNIGHT BLUE

Inspired by the dancing northern lights, also called Aurora, in all its glory. The deep and mysterious blue is a dominating colour in the latest trends, where the Nordic dark colour palette has become popular. It is a decadent and an exclusive blue colour celebrating the Scandinavian nature.

METALLIC BROWN

// METALLIC BROWN

Turns your mind to a late summer evening by the lake. The dragonfly's sparkling body reflecting in the water is the inspiration for Metallic Brown, where the deep and raw brown colour plays freely with the sparkling and reactive gold glazing. Set a sparkling RAW table with Metallic Brown or play with the colours from Northern Green and Midnight Blue, which brings the senses into play.

NORTHERN GREEN

// NORTHERN GREEN

The stoneware has a deep green pine colour with small, grey, almost sparkling speckles. This creates a beautiful contrast but is still subtle and suits most Scandinavian table settings. An exclusive and raw solid-coloured stoneware compound, which is fired twice to reach the highest quality and a strong durability.

SILICONE PLACEMATS

NEWS // SILICONE PLACEMATS

A **new** edition of our Silicone placemats with a soft PU surface and a silicone base, working seamlessly together. The PU adapts to the silicone, preventing bending or splitting over time. Durable, flexible, and stylish, these placemats are designed to complement RAW stoneware beautifully. The placemats are water- and dirt-resistant, but we recommend removing food and fluids within a reasonable time to avoid stains.

NATURE & LINEN

// NATURE & LINEN

Our linen textiles are made of 100% linen and are therefore of very high quality. The pure linen has a natural ability to absorb moisture as well as to dry more quickly than most other textiles. In addition, linen has a desired ability to keep shape. With proper care, our linen textiles are almost impossible to wear out.

Our round, nature reed placemats come with a sense of nature with a beautiful bohemian look. A perfect addition to the raw stoneware if you want a softer and more feminine table setting.

CARE GUIDE

Taking good care of your belongings makes good sense. It prolongs their lifespan, which is good for your finances as well as the planet. Follow our care guide and keep your things beautiful and usable for many years to come.

LINEN

Linen is a durable natural material with long-lasting fibres and excellent qualities. Our textiles are made from 100% pure linen, known for its ability to absorb moisture and dry quickly. Linen retains its shape well and, with proper care, is almost impossible to wear out. Before the first wash, soak coloured linen in cold water and natural-coloured linen in warm water for 24 hours. Wash at 60°C on a gentle cycle with mild detergent. Avoid bleach, optical brighteners, and tumble drying. Stretch and hang to dry out of direct sunlight. Linen's wrinkled look is part of its charm, so avoid ironing. If needed, iron at low heat while damp. Note that pure linen may shrink by 5-7%.

RECYCLED LEATHER

Our placemats made from recycled leather consist of 95% recycled core leather, providing an attractive, stain- and water-resistant surface. However, it is still important to care for and handle the placemats correctly to prevent stains, rings, discolouration, and other permanent damage. Always remove spilled food and liquids immediately, as they can otherwise cause stains. The placemats should also be cleaned after each use, which can be done quickly and easily with a damp cloth and a little mild dish soap. Never put the placemats in the dishwasher. Avoid contact with hot items such as pots and pans, folding, and prolonged exposure to direct sunlight. Occasionally, the placemats can be rolled in the "opposite" direction to help them maintain a perfectly flat and even shape.

STAINLESS STEEL

Stainless steel is robust and easy to maintain. Rinse or wash it immediately after use to avoid damage from acidic foods. Avoid soaking, as all steel, including stainless steel, can rust if mistreated. Our stainless steel products are dishwasher safe, but use chlorine-free detergent and rinse aid from the same brand. Do not overload the dishwasher, and dry the items thoroughly after washing to preserve their appearance. Prevent "flash rust" by running regular dishwasher cleaning cycles and avoiding contact with rusted items. Check the plastic coating on wire racks to prevent rust transfer. Knives should be placed separately, as their blades are made from steel that is less rust-resistant.

SILICONE

The silicone placemats have a surface made from PP plastic, making them highly stain- and water-resistant and incredibly easy to maintain. However, there are a few precautions to be aware of to keep them looking good and functional for many years to come. Daily cleaning and care can be done easily with damp cloth and, if needed, a little mild dish soap. Never place the placemats in the dishwasher. Avoid contact with hot items such as pots and pans, folding, and prolonged exposure to direct sunlight. Additionally, the placemats should always be placed on a flat, dry surface and stored flat to maintain their neat and level appearance.

SODA GLASS

Our soda glasses are easy to maintain and dishwasher safe. Wash them with dishes and cutlery at temperatures below 55°C using a short programme. To prevent corrosion (glass disease), adjust your dishwasher to your water hardness and dose detergent, salt, and rinse aid correctly. Store glasses upright to allow them to breathe. A white coating may be lime deposits, removable with citric acid. Add 50 grams to the detergent compartment and run a cycle.

STONEWARE

Stoneware is a robust material fired at high temperatures. The higher the temperatures, the stronger it becomes, and our stoneware is fired at very high temperatures exceeding 1200°C. As long as you follow certain precautions, our stoneware is dishwasher, microwave, oven, and freezer safe. However, you should never place ordinary stoneware into a preheated oven or set hot stoneware directly onto a cold surface. Large temperature differences may cause the stoneware to crack or break. It should always be heated up gradually and cooled down slowly. Our stoneware is handcrafted and features a scratch-resistant glaze. However, if your stoneware shows signs of use, such as utensil marks or small scratches, don't worry. This is entirely normal and can usually be removed with marble powder – always follow the instructions for use.

TEAK

Teak wood is an extremely durable material, and the hard wood is nearly impossible to wear out if treated properly. Never place a cutting board or other teak wood products in the dishwasher. Instead, wash them by hand, dry them thoroughly, and allow them to air dry completely before putting them away. To prevent the wood from drying out, it should be regularly treated with oil. Always choose an oil that is suitable and approved for contact with food. Unpleasant odours can be easily removed by sprinkling a tablespoon of coarse salt over the cutting board, rubbing it with half a lemon, and then rinsing it clean.

THERMO BOTTLES

Our thermo bottles are suitable for hand washing only. Do not use bleach or chlorine-based cleaning, and ensure the bottle is thoroughly dried before storing. Do not leave the bottle submerged in water for extended periods. The thermal bottles must not be placed in the microwave and are not suitable for carbonated beverages. Before use, all parts should be washed in warm, soapy water, rinsed, and thoroughly dried. Recommended for hot or cold beverages.
